

Stretching the City Streets

City streets were built originally for horse and wagon—not for motor trucks!

Increasing congestion, with its complement of long pauses at each crossing, is sweeping away the profits and time economy that first induced you to buy a motor truck!

Men whose bread and butter is hauling by truck, must realize that "a saturation point" is being reached and to get full measure of profit from investment must move on to the highways!

Inter-city hauling will cut your upkeep costs in half and double your profits—just as surely as the deep, long-wearing and trouble-free treads of

GOODRICH DE LUXE Truck Tires cut tire costs and swell mileage figures in proportion to other makes.

They are the last word in solid tire construction; with treads specially-toughened, yet so resilient as to support without breakage the most fragile loads.

Adjustment 10,000 miles.
We sell and apply them.

A Four Page Ad, for the Boston Store Breaks Record

What is probably the largest single advertisement published in the interest of one house in Arizona, and paid for exclusively by that institution, appears today in The Republican on pages 7, 8, 9 and 10. It is the advertisement of the Boston Store's Unloading Sale, preparations for which have been under way for more than a month.

Other large advertisements have been printed by The Republican, one even as large as 20 pages, but the advertisements were partially devoted to advertising the manufacturer or paid for in part by those who have business connection with the advertiser.

The ad this morning of the Boston Store is run in the regular course of the store's business and is so much larger than is usually used by department stores because a bigger story than usual is required to tell of such a big undertaking.

GIVE BLOW FOR BLOW END OF ENGLISH COAL URGES CUMMINGS AT STRIKE IS IN SIGHT ENTHUSIASTIC MEET

[Republican A. P. Leased Wire]

OMAHA, July 24.—"Blow for blow" was the slogan of a rallying call to democrats here tonight when Homer S. Cummings, chairman of the democratic national committee, addressed a meeting of Nebraska democratic leaders at the Omaha Athletic club. The national committee was represented not only by Mr. Cummings but by Mrs. Elizabeth Eass, associate member of the committee and Mrs. Antoinette Funk of Washington, D. C., head of the woman's educational bureau.

"The time has come," said Mr. Cummings, "for democrats not only to stand together, but to stand together aggressively, supporting an affirmative program by positive action. If I have any power in the councils of the party, I propose to use it for pressing every advantage that comes to our hands. We have the aggressive now and we shall not lose it."

"The campaign of 1920 has already begun. I am tired of having men criticize the president on petty grounds. The manner in which he has treated has been the most shameful, dastardly, disgraceful, humiliating spectacle that this country has ever seen."

"The time is here when democrats should resist this sort of thing, when they should give blow for blow and then some."

Speaking of what he termed the obstructive tactics of partisan republicans in the senate as regards the league of nations covenant, Mr. Cummings said:

"No man and no nation intentionally placing obstacles in the way of a league of nations will survive long enough to outlive the memory of such an offense against humanity and civilization. The covenant of the league of nations has become one of the great facts of history. The treaty of peace, in history, the covenant of the league, must be accepted or rejected. Senatorial critics can no longer find a comfortable hiding place under the pretext that they favor a league of nations but are opposed to the suggested form of a league of nations. The issue is clear-cut and unmistakable. They are either in favor of this particular league or they are opposed any league at all."

"It is said the proposed covenant of peace is too vague. It is one of the chief merits of the draft that it does not pretend to pass upon every conceivable question, but has within itself a certain degree of flexibility, so that new adjustments may be made as new conditions develop, and so that readjustments may be made where errors have crept in."

"We ask for the establishment of a league of nations because we know that if it is not now secured, it may remain forever an unrealized dream."

MAGDALENA MAYOR TAKES ACTION TO ENFORCE NEW LAW

[Republican A. P. Leased Wire]

DOUGLAS, July 24.—Every Chinese merchant in the municipality of Magdalena, Sonora, Mexico, has been arrested by order of the mayor, Jose Maria Arana, upon the charge of failure to comply with the Sonora state statute making employment of at least 50 per cent Mexican help "in all establishments, industrial or commercial" compulsory, according to El Tiempo, a newspaper published in Canada, which reached Douglas today. The merchants were first given warning that they must replace Chinese clerks with Mexicans. Upon their failure to comply within the time limit allowed the merchants were arrested, tried and convicted. Heavy penalties were imposed; the paper says, but whether this included both fines and imprisonment allowable under the terms of the law, is not stated.

Mayor Arana has been one of the leading figures in the anti-Chinese agitation which resulted in the passage of the 50 per cent law at the session of the Sonora state congress in June. He was particularly active last year in speech-making throughout Sonora in an effort to arouse the Mexicans to what he termed "the Chinese menace."

Chinese control most of the mercantile business in Sonora. Through a mutual benefit society, to which every Chinese in the state is said to pay dues, it is understood steps are to be taken to test the legality of the 50 per cent law in the Mexican courts. Their attorneys are said to be preparing briefs to show that the law violates the favored nation clause in the treaty between the governments of Mexico and China.

FOREST FIRES SWEEP MICHIGAN
DETROIT, Mich., July 24.—High winds continued today to drive fires at a rapid rate through pine forests, brush and over prairie lands of upper Michigan and the northern counties of the lower peninsula. Reports from fire wardens in half a dozen counties indicate that the situation was more threatening than at any time this year. Only a heavy rain, it is said, will check the blaze. One village, Dollar Settlement, was destroyed yesterday, a short time after the residents had abandoned their homes.

SEAMEN STRIKE NEARING END
NEW YORK, July 24.—Progress toward settlement of the seamen's strike was reported tonight by Raymond B. Stevens, vice-chairman of the United States shipping board, who added that he would "have something definite tomorrow morning." A series of conferences was held here today.

"The Sale You've Been Waiting For"

Clearance SALE at HYDER'S

WE are going to clear our store of a number of timely articles of clothing, etc., and to do this quickly we have made some remarkable cuts on A-1 quality goods. The regular service, quality, courtesy, etc., is yours—the only change is the remarkably low prices on these certain fine lines.

Sale Starts
Friday, July 25
